KP Group's Milestone in Generating Power from Renewable Sources – Solar and Wind

Due to the visionary approach of its Chairman, Faruk Patel, KP Group has become one of the fastest developing companies in wind and solar in the country.

Son of a bus conductor, Faruk Ghulam Patel's Surat based company, KP Group, has emerged, not only in Gujarat but throughout our country, as a symbol in the area of generation of renewable energy, i.e., solar and wind.

KP Group CMD, Farukbhai Patel, says that today the entire world is shifting towards renewable energy. This group could foresee the future of renewable energy about 10 years back and is successfully running 15MW of solar power plant in Sudi village of Bharuch and is working to start production from 25MW part in phase-2. This plant is supplying solar power to several operational companies including Mafatlal Group, Best Paper Mills Group, Laser Fiber, etc. through IPP and CPP mode. As a result, Solarism has received 'The Best Solar Park in India' award. Now, KPI Global Infrastructure Ltd, is proposing, subject to receipt of requisite approvals, market conditions and other considerations, to undertake an initial public offering in the near future and is in the process of filing a draft red

herring prospectus with the SME Platform of the BSE Limited.

Fraukbhai (KP) informed that under KP Energy Ltd, 89 Windmills with generating capacity of 189.6 Megawatt of wind power and injecting into the grid in Porbandar and Bhavnagar. KP Group is currently executing wind project of 300MW. KP Group went public in 2016 by listing on BSE. The CMD of the company, Farukbhai recalls that he kept on thinking about stock market right from the days when he had only scooter and kept on dreaming that he would lead his company to BSE listing and finally he has fulfilled his dream through his hard and sincere working with full faith and determination.

KP Buildcon has scaled great heights in mobile communications KP Buildcon Pvt Ltd, a KP group company, entered into mobile communication in the year 2001 and

installed mobile telecom towers for several companies in 15 major States. The company has also laid 1700 km of OFC network and is also doing O&M of 1800 km of OFC Network for Vodafone. It owns a large and modern fabrication factory in Dabhasa village of Vadodara in which mobile and wind towers are fabricated and galvanized.
